

WHOLE SCHOOL END POINTS  
SCIENCE

		Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Cycle A	EY	Seasonal Changes: Autumn	Light & Dark Nocturnal Animals	Seasonal Change: Winter / Hibernation	Animal Habitats	Growing Life Cycles	Space
	Y1/2	What Are Toys Made From?	My Body	Identifying Animals	Everyday Materials	Exploring Materials	Seasonal Change
	Y3/4	Light and Shadow	States of Matter	Circuits and Conductors	Living Environments	Habitats: Desert Life	Changing Sound
	Y5/6	Changes and Reproduction	Life Cycles	Changing Circuits	Evolution and Inheritance	Classifying Organisms	Investigating Science
Cycle B	EY	Seasonal Changes: Autumn	On the Farm	Freezing & Melting	Seasonal Change: Spring	Growing Life Cycles	Minibeasts
	Y1/2	Identifying Plants	Growth and Survival	Living in Habitats	Super Scientists	The Secret World of Plants	Growing Plants
	Y3/4	Forces and Magnets	Health and Movement	Eating Digestion	What Do Scientists Do?	Rocks, Fossils and Soils	How Plants Grow
	Y5/6	Properties and Changes of Materials	Earth and Space	Forces in Action	Great British Scientist	Seeing Light	Healthy Bodies

		Cycle A					
		Autumn		Spring		Summer	
Early Years	<b>Seasonal Changes: Autumn</b> <ul style="list-style-type: none"> <li>Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter</li> </ul>	<b>Light &amp; Dark Nocturnal Animals</b> <ul style="list-style-type: none"> <li>Explore the natural world around them, making observations and drawing pictures of animals and plants.</li> </ul>	<b>Seasonal Change: Winter / Hibernation</b> <ul style="list-style-type: none"> <li>Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter</li> </ul>	<b>Animal Habitats</b> <ul style="list-style-type: none"> <li>Know some similarities and differences between the natural world around them and contrasting environments</li> </ul>	<b>Growing Life Cycles</b> <ul style="list-style-type: none"> <li>Explore the natural world around them, making observations and drawing pictures of animals and plants</li> </ul>	<b>Space</b> <ul style="list-style-type: none"> <li>Participate in small group, class and one-to-one discussions, offering their own ideas, using recently introduced vocabulary.</li> </ul>	
	<b>What Are Toys Made From?</b> <ul style="list-style-type: none"> <li>Identify and name a variety of everyday materials used to make toys.</li> <li>Describe the properties of common materials</li> </ul>	<b>My Body</b> <ul style="list-style-type: none"> <li>Identify, name and label body parts.</li> <li>Explore what parts of our bodies we use for different activities.</li> <li>Name the 5 senses</li> </ul>	<b>Identifying Animals</b> <ul style="list-style-type: none"> <li>Identify and name a variety of common animals.</li> <li>Identify and sort carnivores, herbivores and omnivores.</li> <li>Collect data about animals and answer questions</li> </ul>	<b>Everyday Materials</b> <ul style="list-style-type: none"> <li>Describe why some materials suit certain objects better than others.</li> <li>Plan and carry out a fair test with support</li> </ul>	<b>Exploring Materials</b> <ul style="list-style-type: none"> <li>Identify natural and man-made materials.</li> <li>Identify that some materials can change shape by squashing, bending, stretching and twisting, and others can't.</li> <li>Identify different materials that are used for same product</li> </ul>	<b>Seasonal Change</b> <ul style="list-style-type: none"> <li>Name and describe the 4 seasons</li> <li>Describe how humans and animals are affected by the seasons</li> <li>Describe how day length is affected by the seasons.</li> </ul>	
Year 1/2	<b>Light and Shadow</b> <ul style="list-style-type: none"> <li>Identify what light is and where it comes from.</li> <li>Describe what shadows are and how they behave</li> <li>Describe how shadows are and why they are formed.</li> </ul>	<b>States of Matter</b> <ul style="list-style-type: none"> <li>Compare and group materials according to whether they are solids or liquids.</li> <li>Identify and explore the properties of gases.</li> <li>Describe how materials change state when they are heated or cooled.</li> </ul>	<b>Circuits and Conductors</b> <ul style="list-style-type: none"> <li>Construct simple circuits</li> <li>Describe how to keep safe around electrical appliances.</li> <li>Recognise common conductors and insulators</li> </ul>	<b>Living Environments</b> <ul style="list-style-type: none"> <li>Identify a variety of habitats and explore why organisms live in different habitats</li> <li>Classify animals into specific groups according to their characteristics.</li> <li>Use a classification key to identify animals.</li> </ul>	<b>Habitats: Desert Life</b> <ul style="list-style-type: none"> <li>Describe features of a desert habitat</li> <li>Group desert animals in different ways</li> <li>Describe how plants and animals are adapted to survive in the desert</li> </ul>	<b>Changing Sound</b> <ul style="list-style-type: none"> <li>Describe relationship between distance and volume.</li> <li>Plan and carry out a fair test</li> <li>Draw conclusions from their observations</li> </ul>	
	<b>Changes and Reproduction</b> <ul style="list-style-type: none"> <li>Recognise and describe the stages of growth and development in humans.</li> <li>Know the stages in the gestation period of humans and compare them to other animals.</li> <li>Understand the initial changes inside and outside of the body during puberty for boys and girls</li> </ul>	<b>Life Cycles</b> <ul style="list-style-type: none"> <li>Describe the process of sexual and asexual reproduction in flowering plants.</li> <li>Describe the process of sexual reproduction in animals.</li> <li>Compare how different animals reproduce and grow.</li> </ul>	<b>Changing Circuits</b> <ul style="list-style-type: none"> <li>Recognise and use conventional symbols for circuits.</li> <li>Describe ways in which the brightness of a bulb or speed of a motor is changed.</li> <li>Plan, carry out and evaluate an experiment</li> </ul>	<b>Evolution and Inheritance</b> <ul style="list-style-type: none"> <li>Describe how adaptation of plants and animals to suit their environment may lead to evolution.</li> <li>Describe how and why species can change over time</li> <li>Explain some ways in which human behaviour has changed the characteristics of other species</li> </ul>	<b>Classifying Organisms</b> <ul style="list-style-type: none"> <li>Describe what micro-organisms are and how they can be grouped.</li> <li>Give reasons for why classification systems are important</li> <li>Use a variety of sources of information to identify organisms they are unfamiliar with in the local area</li> </ul>	<b>Investigating Science</b> <ul style="list-style-type: none"> <li>Devise and conduct tests, interpreting results and reporting findings</li> <li>Use observations and test results to make predictions and to set up further tests</li> </ul>	
Year 3/4	<b>Changes and Reproduction</b> <ul style="list-style-type: none"> <li>Recognise and describe the stages of growth and development in humans.</li> <li>Know the stages in the gestation period of humans and compare them to other animals.</li> <li>Understand the initial changes inside and outside of the body during puberty for boys and girls</li> </ul>	<b>Life Cycles</b> <ul style="list-style-type: none"> <li>Describe the process of sexual and asexual reproduction in flowering plants.</li> <li>Describe the process of sexual reproduction in animals.</li> <li>Compare how different animals reproduce and grow.</li> </ul>	<b>Changing Circuits</b> <ul style="list-style-type: none"> <li>Recognise and use conventional symbols for circuits.</li> <li>Describe ways in which the brightness of a bulb or speed of a motor is changed.</li> <li>Plan, carry out and evaluate an experiment</li> </ul>	<b>Evolution and Inheritance</b> <ul style="list-style-type: none"> <li>Describe how adaptation of plants and animals to suit their environment may lead to evolution.</li> <li>Describe how and why species can change over time</li> <li>Explain some ways in which human behaviour has changed the characteristics of other species</li> </ul>	<b>Classifying Organisms</b> <ul style="list-style-type: none"> <li>Describe what micro-organisms are and how they can be grouped.</li> <li>Give reasons for why classification systems are important</li> <li>Use a variety of sources of information to identify organisms they are unfamiliar with in the local area</li> </ul>	<b>Investigating Science</b> <ul style="list-style-type: none"> <li>Devise and conduct tests, interpreting results and reporting findings</li> <li>Use observations and test results to make predictions and to set up further tests</li> </ul>	
	<b>Changes and Reproduction</b> <ul style="list-style-type: none"> <li>Recognise and describe the stages of growth and development in humans.</li> <li>Know the stages in the gestation period of humans and compare them to other animals.</li> <li>Understand the initial changes inside and outside of the body during puberty for boys and girls</li> </ul>	<b>Life Cycles</b> <ul style="list-style-type: none"> <li>Describe the process of sexual and asexual reproduction in flowering plants.</li> <li>Describe the process of sexual reproduction in animals.</li> <li>Compare how different animals reproduce and grow.</li> </ul>	<b>Changing Circuits</b> <ul style="list-style-type: none"> <li>Recognise and use conventional symbols for circuits.</li> <li>Describe ways in which the brightness of a bulb or speed of a motor is changed.</li> <li>Plan, carry out and evaluate an experiment</li> </ul>	<b>Evolution and Inheritance</b> <ul style="list-style-type: none"> <li>Describe how adaptation of plants and animals to suit their environment may lead to evolution.</li> <li>Describe how and why species can change over time</li> <li>Explain some ways in which human behaviour has changed the characteristics of other species</li> </ul>	<b>Classifying Organisms</b> <ul style="list-style-type: none"> <li>Describe what micro-organisms are and how they can be grouped.</li> <li>Give reasons for why classification systems are important</li> <li>Use a variety of sources of information to identify organisms they are unfamiliar with in the local area</li> </ul>	<b>Investigating Science</b> <ul style="list-style-type: none"> <li>Devise and conduct tests, interpreting results and reporting findings</li> <li>Use observations and test results to make predictions and to set up further tests</li> </ul>	
Year 5/6	<b>Changes and Reproduction</b> <ul style="list-style-type: none"> <li>Recognise and describe the stages of growth and development in humans.</li> <li>Know the stages in the gestation period of humans and compare them to other animals.</li> <li>Understand the initial changes inside and outside of the body during puberty for boys and girls</li> </ul>	<b>Life Cycles</b> <ul style="list-style-type: none"> <li>Describe the process of sexual and asexual reproduction in flowering plants.</li> <li>Describe the process of sexual reproduction in animals.</li> <li>Compare how different animals reproduce and grow.</li> </ul>	<b>Changing Circuits</b> <ul style="list-style-type: none"> <li>Recognise and use conventional symbols for circuits.</li> <li>Describe ways in which the brightness of a bulb or speed of a motor is changed.</li> <li>Plan, carry out and evaluate an experiment</li> </ul>	<b>Evolution and Inheritance</b> <ul style="list-style-type: none"> <li>Describe how adaptation of plants and animals to suit their environment may lead to evolution.</li> <li>Describe how and why species can change over time</li> <li>Explain some ways in which human behaviour has changed the characteristics of other species</li> </ul>	<b>Classifying Organisms</b> <ul style="list-style-type: none"> <li>Describe what micro-organisms are and how they can be grouped.</li> <li>Give reasons for why classification systems are important</li> <li>Use a variety of sources of information to identify organisms they are unfamiliar with in the local area</li> </ul>	<b>Investigating Science</b> <ul style="list-style-type: none"> <li>Devise and conduct tests, interpreting results and reporting findings</li> <li>Use observations and test results to make predictions and to set up further tests</li> </ul>	
	<b>Changes and Reproduction</b> <ul style="list-style-type: none"> <li>Recognise and describe the stages of growth and development in humans.</li> <li>Know the stages in the gestation period of humans and compare them to other animals.</li> <li>Understand the initial changes inside and outside of the body during puberty for boys and girls</li> </ul>	<b>Life Cycles</b> <ul style="list-style-type: none"> <li>Describe the process of sexual and asexual reproduction in flowering plants.</li> <li>Describe the process of sexual reproduction in animals.</li> <li>Compare how different animals reproduce and grow.</li> </ul>	<b>Changing Circuits</b> <ul style="list-style-type: none"> <li>Recognise and use conventional symbols for circuits.</li> <li>Describe ways in which the brightness of a bulb or speed of a motor is changed.</li> <li>Plan, carry out and evaluate an experiment</li> </ul>	<b>Evolution and Inheritance</b> <ul style="list-style-type: none"> <li>Describe how adaptation of plants and animals to suit their environment may lead to evolution.</li> <li>Describe how and why species can change over time</li> <li>Explain some ways in which human behaviour has changed the characteristics of other species</li> </ul>	<b>Classifying Organisms</b> <ul style="list-style-type: none"> <li>Describe what micro-organisms are and how they can be grouped.</li> <li>Give reasons for why classification systems are important</li> <li>Use a variety of sources of information to identify organisms they are unfamiliar with in the local area</li> </ul>	<b>Investigating Science</b> <ul style="list-style-type: none"> <li>Devise and conduct tests, interpreting results and reporting findings</li> <li>Use observations and test results to make predictions and to set up further tests</li> </ul>	

		Cycle B					
		Autumn		Spring		Summer	
Early Years	<b>Seasonal Changes: Autumn</b>	<b>On the Farm</b>	<b>Freezing &amp; Melting</b>	<b>Seasonal Change: Spring</b>	<b>Growing Life Cycles</b>	<b>Minibeasts</b>	
	<ul style="list-style-type: none"> <li>Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter</li> </ul>	<ul style="list-style-type: none"> <li>Know some similarities and differences between the natural world around them and contrasting environments</li> </ul>	<ul style="list-style-type: none"> <li>Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter</li> </ul>	<ul style="list-style-type: none"> <li>Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter</li> </ul>	<ul style="list-style-type: none"> <li>Explore the natural world around them, making observations and drawing pictures of animals and plants</li> </ul>	<ul style="list-style-type: none"> <li>Explore the natural world around them, making observations and drawing pictures of animals and plants</li> </ul>	
Year 1/2	<b>Identifying Plants</b>	<b>Growth and Survival</b>	<b>Living in Habitats</b>	<b>Super Scientists</b>	<b>The Secret World of Plants</b>	<b>Growing Plants</b>	
	<ul style="list-style-type: none"> <li>Identify plants and describe similarities and differences between them</li> <li>Describe the features of different trees using appropriate vocabulary</li> <li>Name and describe the function of the parts of a plant</li> </ul>	<ul style="list-style-type: none"> <li>Identify the offspring of a variety of different animals.</li> <li>Describe some of the different ways animals have offspring</li> <li>Describe the stages of human development</li> </ul>	<ul style="list-style-type: none"> <li>Identify things that are living, things that are dead and things that have never been alive</li> <li>Compare habitats and the animals and plants that live in them</li> <li>Construct a simple food chain</li> </ul>	<ul style="list-style-type: none"> <li>Use own knowledge to make predictions</li> <li>Ask questions and make observations</li> <li>Notice and describe patterns in their findings</li> </ul>	<ul style="list-style-type: none"> <li>Identify the things most plants need to germinate and mature</li> <li>Begin to explain, in simple terms, how plants make their own food?</li> <li>Observe and describe how plants grow</li> </ul>	<ul style="list-style-type: none"> <li>Name some plants that grow from seeds and bulbs</li> <li>Describe some of the ways in which seeds can be dispersed</li> <li>Plan and carry out an investigation, making sure it is a fair test</li> </ul>	
Year 3/4	<b>Forces and Magnets</b>	<b>Health and Movement</b>	<b>Eating Digestion</b>	<b>What Do Scientists Do?</b>	<b>Rocks, Fossils and Soils</b>	<b>How Plants Grow</b>	
	<ul style="list-style-type: none"> <li>Identify pushes and pulls and explain the forces in action</li> <li>Describe how magnetic forces work</li> <li>Make and test predictions about whether materials are magnetic or not</li> </ul>	<ul style="list-style-type: none"> <li>Identify and group a variety of foods</li> <li>Know the difference between vertebrates and invertebrates</li> <li>Know what muscles are and their purpose</li> </ul>	<ul style="list-style-type: none"> <li>Identify the different types of human teeth and their purpose</li> <li>Name some of the organs associated with the digestive system</li> <li>Describe the process of digesting food</li> </ul>	<ul style="list-style-type: none"> <li>Identify the steps involved in the scientific method.</li> <li>Draw conclusions from careful observations.</li> <li>Create a hypothesis and plan an investigation to answer an enquiry question.</li> </ul>	<ul style="list-style-type: none"> <li>Identify and name some common rocks</li> <li>Evaluate results and draw conclusions</li> <li>Describe how fossils are formed</li> </ul>	<ul style="list-style-type: none"> <li>Describe the way in which water is transported within plants.</li> <li>Know how and where seeds are formed in flowering plants</li> <li>Identify the parts of a seed</li> </ul>	
Year 5/6	<b>Properties and Changes of Materials</b>	<b>Earth and Space</b>	<b>Forces in Action</b>	<b>Great British Scientist</b>	<b>Seeing Light</b>	<b>Healthy Bodies</b>	
	<ul style="list-style-type: none"> <li>Plan and conduct a fair test involving soluble and insoluble materials</li> <li>Describe how evaporation can be used to separate soluble materials from water</li> <li>Recognise reversible and irreversible changes caused by heating and cooling</li> </ul>	<ul style="list-style-type: none"> <li>Describe the movements of the Sun, Earth and Moon.</li> <li>Describe how the phases of the Moon are created</li> <li>Name the eight planets in our solar system?</li> </ul>	<ul style="list-style-type: none"> <li>Identify and explain the effects of friction</li> <li>Identify and explain the effects of air resistance.</li> </ul>	<ul style="list-style-type: none"> <li>Investigate and explain Newton's three laws of motion</li> <li>Describe the effects of gravity and how it changes in different places in our solar system</li> <li>Describe the works of Anning, Darwin and/or Wallace and how their work contributed to scientific understanding</li> </ul>	<ul style="list-style-type: none"> <li>Describe and explain how an object's shadow can be manipulated</li> <li>Name and describe the purpose of the parts of the eye</li> <li>Distinguish if object will reflect or refract light</li> </ul>	<ul style="list-style-type: none"> <li>Describe how the circulatory system works</li> <li>Describe the functions of the heart</li> <li>Describe the harmful effects some drugs can have on the body</li> </ul>
